Reading

O. Read the text and answer the questions.(3 points)

3 Saturn is the sixth planet in the Solar System. It is very pretty. It has many colors in its atmosphere and very big rings around it. The rings are made from very small rocks and ice .All of the giant planets such as Jupiter, Uranus and Neptune have rings, but Saturn's rings are the biggest ones. Saturn also has many moons because of its strong gravity. It is much bigger and colder than Earth. It is too cold for humans and animals to live, because it is too far away from the Sun. Saturn orbits the Sun faster than Earth, so a day on Saturn is shorter than a day on Earth. A day on Saturn is about 10.7 hours long while a day on Earth is 23.9 hours long. (giant = very big)

59. People can live on Saturn. (True / False)

60. Saturn is colder and smaller than Earth. (True / False)

61. Why is Saturn very cold?

62. How many hours is a day on Saturn?

P. Read the text and answer the questions. (3 points)

3 Microbes are very wonderful. They are everywhere! They live all around you, on you and inside you. Microbes are very small, so you cannot see them. Some microbes make you sick, but most others keep you healthy and even help you fight diseases. Bacteria and viruses are two types of microbes. Bacteria are very small. They have only one cell. Bacteria can live in any area. They aren't all bad. You cannot live without some bacteria! Viruses are even smaller than bacteria. They cannot live on their own. They need to be inside a living thing to live and grow. They usually attack your body and make you sick.

63. Viruses have one cell. (True / False)
64. Microbes are a type of bacteria. (True / False)
65. Which one can help you fight diseases?
66. What do viruses need to grow ?

Q. Read the text and answer the questions. (4 points)

4 Good morning everyone and welcome back to my weblog. These days, I'm on a three-day tour and I'm going to visit Yazd, one of the oldest cities in the world. Most of the buildings here are simple and ancient. I'm sure I'll enjoy visiting many historical sites on this tour. Our first day, we'll visit Masjed-e-Jaame, a great mosque where many Muslims go every day to say their prayers. Later, we'll drive to Dowlat Abad Garden, a beautiful paradise where some kings spent their vacations. And our final site to visit will be the popular wind towers of Yazd. So, we'll have a walk inside the city. That's all for today. Visit my weblog for more information and photos.

67. Most of the buildings in Yazd are modern. (True / False)
68. We don't need to go outside the city to visit the well-known wind towers of Yazd. (True / False)
69. How many days is he going to stay in Yazd?
70. What do people do in Masjed-e- Jame?
71. Where is the writer's last destination in Yazd?

GOOD LUCK
M. Rahnama
